

BURNER OPTIONS FOR THE LEGEND G4

G4 - MODEL 780 with STAINLESS BURNER (LOG or ROCK)

The model 780 firebed is divided into two distinct looks - traditional log and contemporary rock with driftwood.

Timeless in design, the traditional log set distributes a steady, even glow throughout the firebox. Resting within the log bed, reflective glass illuminates the hearth and highlights beautiful flame movement.

For those seeking contemporary appeal, we offer the Beachside firebed. Driftwood and river rock nestle gently on a sand base platform, permeating warmth and impressive Valor radiant heat.

G4 - MODEL 785 with CERAMIC BURNER (LOG ONLY)

The 785 high definition log set is handcrafted to maximize radiant heat. Detail to realism and log design is highlighted by magnificent flames on both high and low fire.

Glowing embers radiate warmth and comfort when turned down to low, providing the perfect atmosphere as the evening unwinds. Traditional design accompanies years of Valor engineering, the result, a beautiful fire that distributes steady, even warmth for your home.

BRICK LINER OPTIONS

There are four brick liner sets to choose from: Valor Red Brick, LedgeStone Liner, Black Enamel Liner and Black Fluted Liner. Standard with every brick set, base bricks cover the bottom of the firebed (in front of the log grate) providing continuity within.

Base bricks used with 780 engine only. See spec page for brick liner images.

Beachside Rock Set
(780JN/P & 781RSK)

Traditional Log Set
(780JN/P & 782LSK)

Ceramic Burner with High Definition Log Set (785JLN/P)

THE VALOR LEGEND G4 INSERT

Introducing the Legend G4, our latest addition to the Valor insert family. Considered the “big brother” to our highly successful Legend G3 Insert, the G4 is a synthesis of distinct design and energy efficient heating performance.

At Valor, we believe the process of updating your living space esthetics should include a significant upgrade in fireplace technology and efficiency. The G4 pursues this concept with features including:

RADIANT & CONVECTED HEAT - Engineered to maximize heat, the G4 supplies a continuous flow of radiant and naturally convected warm air. Travelling at the speed of light, radiant energy continuously warms objects in its path. When warming the human body, radiant heat satisfies your comfort needs with up to 25% less overall energy compared to forced air systems.

VALOR DYNAMIC RESTRICTOR TECHNOLOGY (VDRT)* - Exclusive with the Legend G4, VDRT increases thermal efficiencies and automatically adjusts combustion air, maximizing fireplace performance in all conditions. Another Valor first! *(Patents Pending)

NO POWER, NO PROBLEM - Valor gas fireplaces are fully functional heaters that don't require electricity (AC) for steady, efficient operation. Our fireplaces provide the perfect mixture of radiant and convective heat, virtually eliminating the need for a fan.

VALORSTAT MAX REMOTE CONTROL & VALOR SMARTPILOT SYSTEM (Standard with Purchase)

Easily select, adjust and program the desired temperature that you want, saving energy and lowering your overall home heating costs. **Pilot On Demand:** Turn your pilot light ON and OFF from the handheld remote for years of additional energy savings.

If the optional 795CFK Fan Kit is installed, the ValorStat Max provides full control turning the fan on and off, as well as adjusting the fan speed settings.

Energy Saving Feature: The Valor SmartPilot System automatically shuts down if there is no activity after 5 days, reducing unnecessary pilot gas consumption and saving energy.

USE RADIANT HEAT SAFELY

FIREPLACE SAFETY

Fireplace surfaces, in particular the glass viewing window, are extremely hot during operation and will remain hot for a period of time after the fireplace is turned off. Contact with the hot glass can cause severe burns.

Close adult supervision is required if there are young children, or at-risk individuals in the house. Included with your purchase, a Valor Barrier Screen is recommended at all times. Install an approved aftermarket safety gate to keep toddlers, young children and at-risk individuals a safe distance from the fireplace.

G4 FIREPLACE COMPONENTS

ENGINES	780JN	G4 - Stainless Burner - NG (Must select a Log or Rock Set Kit)
	780JP	G4 - Stainless Burner - LPG (Must select a Log or Rock Set Kit)
	785JLN	G4 - Ceramic Burner - NG (Log Set Included)
	785JLP	G4 - Ceramic Burner - LPG (Log Set Included)
FUEL BEDS	781RSK	Rock Set Kit (For model 780 Engine only)
	782LSK	Log Set Kit (For model 780 Engine only)
LINERS	786LSLV2	Ledgestone Liner
	787EBLV2	Enamel Black Liner (Reflective)
	788FBLV2	Black Fluted Liner
	789VRLV2	Valor Red Brick Liner
TRIMS RISERS ACCESSORIES	790FTV	2-1/2" Floating Trim Kit in Vintage Iron (25-5/16"h X 36"w)
	791STB	5-3/4" Square Trim Kit in Black (28-11/16"h X 43"w)
	791STV	5-3/4" Square Trim Kit in Vintage Iron (28-11/16"h X 43"w)
	792FTV	5" Floating Trim Kit in Vintage Iron (27-5/8"h X 40-5/8"w)
	792FTZ	5" Floating Trim Kit in Bronze (27-5/8"h X 40-5/8"w)
	793RTB	Riser Trim in Black (2-1/2"h X 46"w)
	793RTV	Riser Trim in Vintage Iron (2-1/2"h X 46"w)
	794TBB	Trimmable Backing Plate in Black (31"h X 46"w)
	795CFKV2	Circulating Fan Kit
	796ALP	Adjustable Leveling Platform
	797FSB	Framed Safety Screen
	798FFZ	4-Sided Floating Trim Kit in Bronze (32-1/2"h X 40-5/8"w)
	798FFV	4-Sided Floating Trim Kit in Vintage Iron (32-1/2"h X 40-5/8"w)
	1265WSK	Optional Wall Switch Kit
GV60PAK	Power Adaptor Kit for the ValorStat Max	

ABOUT OUR EFFICIENCY RATINGS

All Valor product literature is published using recognized Canadian and US government test methods for determining energy efficiency performance. This ensures our products will perform in your home as rated.

Beware of misleading “steady state” efficiency claims made by manufacturers using their own “in-house” test methods. Examples include alterations to venting and installation restrictions which in turn produce false ratings.

Visit www.valorfireplaces.com for more information.
